

TRIOS Software Overview

TRIOS is TA Instruments' state-of-the-art software package that uses cutting-edge technology for instrument control, data collection, and data analysis for thermal analysis and rheology instruments. The intuitive user interface allows you to simply and effectively program experiments and move easily between processing experiments and viewing and analyzing data. TRIOS software delivers a whole new experiment experience.

- Easy organization and data file management
 - A unique file-naming system allows for effortless organization of data files
 - The History View and File Manager offer simple data file location
- Compatibility with the latest Windows Operating System platforms
- Maximum flexibility
 - Instrument control and data analysis via any networked computer
 - Configurable for multiple monitors
 - Ability to control multiple instruments at once
 - Remote data analysis
- Seamless integration between instrument control and data analysis
- Easy data export in a variety of output formats, including XML, Word, Excel, and PDF
- Simple graph formatting using The Ribbon
- Customization of the display

The TRIOS software is supported by a full range of services, including onsite training, customer service that is only a phone call away, and easy-to-use, easy-to-understand online help. All of these items reflect TA Instruments' commitment to providing thermal analysis and rheology products and related services that deliver maximum value for your investment.

TA Instruments

What's New in TRIOS Software

What's New in TRIOS Software V3.3

TRIOS software is now better than ever with increased stabilization and key fixes and enhancements, including User Interface changes that will make your TRIOS experience exceptional. The next generation of instrument control and data collection and analysis, TRIOS V3.3 is more efficient and intuitive, allowing you to work faster and easier.

General TRIOS Enhancements

Multi-Language Support

This TRIOS V3.3 release includes Chinese language support. Future releases of V3.3 will include support for Russian, Japanese, and German.

TRIOS software defaults to English; the language as well as default settings can be changed in TRIOS Options. The TRIOS language can also be set to match the language that has been specified on the PC.

RHEOLOGY

MagnetoRheology Accessory for DHR

TRIOS V3.3 offers support for the new MagnetoRheology Accessory for the DHR rheometers. The updated firmware provides support for applying a magnetic field to the test sample with open and closed loop control, including the ability to impose the field in sine, half-sine, triangle, half-triangle, square, and pulse waveforms.

INSTALLING TRIOS SOFTWARE

For instructions on installing TRIOS software, refer to the [Installing TRIOS Software](#) instructions.

ADDITIONAL RESOURCES

A number of additional resources are available to you. For assistance with the TRIOS software, first consult the Online Help.

For immediate assistance contact the TA Instruments Hotline at +1 302-427-4000 from 8:00 am to 4:30 pm EST.

For email support, please send your question to one of the following:
