Thank you for your interest in TA Instruments’ Training Courses. Enclosed please find the detailed program, practical information and a registration form.

Software Training

This _ day training is designed to help the operator in using the more advanced features of TA Instruments’ Universal Analysis software, including the use of Macro’s for autoanalysis of data files. This software is used for analysis of DSC, MDSC, TGA, SDT, TMA and DMA files. In order to be able to work in small groups an identical training will be given in the morning and the afternoon.

08.45 – 09.00 Registration – coffee
09.00 – 12.00 Instruction and hands-on of UA software capabilities

OR

13.15 – 13.30 Registration – coffee
