

**Certificate of Conformance
ISO 17025, A2LA and QS9000**

Roger Blaine, Ph.D.
TA Instruments, 109 Lukens Drive, New Castle DE 19720, USA

Some quality initiatives, such as ISO 17025 (also known as Guide 25) and QS 9000, require that laboratory equipment be calibrated by agencies that are ISO 17025 qualified. TA Instruments is a manufacturer and supplier of thermal analysis and rheology testing apparatus. As such an Original Equipment Manufacturer (OEM) supplier, we are prepared to service and calibrate apparatus of our own manufacture and design according to ISO 9002 procedures as part of our user support services. As an OEM supplier, we are exempt from the ISO 17025 requirements consistent with Section 4.11.b.1 of QS 9000.

TA Instruments is ISO 9000 Certified, being the first and longest lived of the thermal analysis and rheology suppliers to attain this status. TA Instruments currently carries the ISO 9001:2000 level certification. A copy of our current ISO Certificate is available as TN053.
