

Waters Capital™

Making Science More Accessible

TA Instruments empowers scientists all over the world with the most advanced analytical technology available. Waters Capital can help you access the latest technology with affordable monthly payment plans. Whether your business is a start-up, academic institution, government, CRO, or Fortune 500, Waters Capital provides flexible financing solutions to help you meet your scientific and business goals.

A financing solution with Waters Capital allows you to maximize your financial resources and access the technology you need to advance your science. By partnering with Waters Capital you will be able to conserve vital capital, accelerate ROI and avoid technology obsolescence. Financing allows you to bundle the costs of equipment, installation and training into a single payment solution while also improving cash flow.

Financing Options

One Dollar Buyout: Finance to own option in which the customer owns the equipment for \$1.00 at the end of the term. Flexible payment terms from 12 – 60 months are available. Payment options can be customized to match budget cycles.

Fair Market Value Lease: Finance the use of the equipment with options to upgrade, purchase, or return the equipment at the end of the lease term. The FMV option reduces monthly payment expense and allows for equipment upgrade to prevent obsolescence and maintain the latest technology in your laboratory.

Don't allow budget challenges or aging technology to slow you down. Waters Capital is committed to partnering with your company to ensure that you are optimizing your budget while planning for the future as your business grows. Please don't hesitate to contact us to discuss creative payment options to assist you in acquiring the technology you need today.
